Drawings and parts lists

❖ Neutralization Media

Material

- **Unplasticized Polyvinyl Chloride (U-PVC)**
- High chemical resistance
- Corrosion resistant
- Suitable for aggressive gases such as chlorine

Dimensions

- **Length:** 120 mm
- **Width:** 30 mm
- **Height:** 30 mm

Application / Use

U-PVC packing media designed for neutralization towers to enhance gas–liquid contact efficiency. Provides high chemical resistance and reliable performance for chlorine gas neutralization systems. Lightweight, corrosion-resistant, and suitable for continuous operation with minimal maintenance.

Final Notes

This document provides the approved drawings, layouts, and dimensions of the unit. For any additional technical information or services, please contact [ChloroMaster].
